What a privilege and exalting experience it is to be alive in a body and in all the worlds. This is personified in the First Nation's traditional Winter Dance, where we dance and chant around the sacred pole, acknowledging all dimensions, and in the Kekuli, in the presence of the Grandmothers and Grandfathers, who come through the sacred fire.

“Heroic stories of Jesus, Buddha and history’s masters, forged in the fire of singularity, have lead us here, now - peering into the galactic abyss. Looking back for guidance we realize, finally and forever, that time has passed its relevance.

Understanding that the savior is us, we take our greatest leap. Inner and outer spaces merge, pulling us higher and closer, inside out. The season calls for the thorn crown to blossom. Kingdom has come, and the all one era is upon us.”

Dr. David Suzuki is an award-winning scientist, environmentalist and broadcaster, and the founder of the Blue Dot (earth as seen from space) movement in recognition of every Canadian's right to live in a healthy environment. Here, he and Stephen Cipes meet at a Water Conference in Kelowna, British Columbia, Canada on October 14, 2015, as they discuss the natural alignment of the Blue Dot movement and the All One Era. The day was synergistic, as Dr. Suzuki, along with Mayors and Chiefs in attendance, sign the DECLARATION to convert the Okanagan Valley back to original pristineness by transitioning all lawns, farms, schools and municipal areas to certified organic practices by the year 2020 – the Organic Okanagan 2020 Vision (sign the DECLARATION at organicokanagan.com).

Jim Carrey's work is serendipitously synergistic with the All One Era.

While we are all one forever souls, our individuality is one of our grandest achievements! Each of us strives to be all we can be! “Vive la différence” – savor and celebrate each and every one of us! Together we are one; brilliant, ever-evolving, ever-loving, co-creative forces of pure loving energy! Remember what Obi Wan Kenobi said in the movie Star Wars, “Stay on target. Use the force, Luke.”

“One of our biggest challenges is to accept and acknowledge our own greatness and the greatness of others.”

Dr. Valerie Hunt, UCLA Professor

“Concerning matter, we have been all wrong. What we have called matter is energy, whose vibration has been so lowered as to be perceptible to the senses. There is no matter.”

Albert Einstein

This quote from Dr. Hunt, alongside Einstein’s most famous quote, brings us to the awareness that as we each ascend, we are both matter, as physical beings, AND simultaneously, we are pure energy! **As we each ascend into our multi-dimensional Selves, we become a Realized Being. Our power is unlimited and all encompassing, we are immortal.**

See fascinating video interview by science writer, Paul LeMay with the Maxogram App.

“Once you reach the vibration of the fifth-dimensional human being, you are in a state of amnesty and light because the fifth dimension is the world that is safe. We are in the vibration of that light now.”

Judith K. Moore

Lindsey's silky poem reminds us we are co-creating in every moment and always have been, simply by being one with our unlimited loving Selves. This wisdom can be achieved at any chronological age, especially as we return to our spontaneous ever-joyful little girl or little boy Selves. We have the ability to dream anything and do anything, and to go to any extremes, or we can chase endless goals and acquire endless possessions. The choice is ours. Merging in the Now, all we "want" is that which serves the greatest good for all, for we are one with all. We go from self-centered egotists, blind to the consequences of our greed, to being ambassadors of abundance for all. More importantly, we realize that whatever we want manifests itself. We ARE the Masters!

At this time in our time, maybe we all need to step back, take some deep breaths, and go within to our hearts, our soul memories, our essence, and our Knowingness. I call it connecting with the ever-present

With purification of Self, our purpose is revealed, and we start to grow exponentially. We take charge of our heretofore misdirected mental energy and open it to our vast capability to literally know all there is to know, without limitation! We begin to celebrate our collective strength of purpose, our perpetuity and sustainability, our continuance and survival, not only as humans in bodies, but for all of nature – our trees, our whales, our dolphins, our elephants, our butterflies, our Earth, and her mountains, lakes, oceans, and skies. To be one with such revelations and to feel the original thrill of being alive within every cell of our bodies is to be in tune with our joyous love of life, our thrill of being our little boy or little girl Selves! It is a renewal of our original exuberance of being alive in a natural state, when we were unaltered by pollution, addiction, fear, or societal- imposed regulations.

To open as receivers to the flow of multi-dimensional Knowingness, where our Presence is felt and the Presence of the Masters is felt, is to come into “God Realization,” and to know that we are all Masters, reaching out to touch others through the LUC. We are now receiving answered prayer; we are a Sea of Masters! As we harmonize with our souls and enrich our bodies, we are in fact enriching the entire world. It is a strengthening of the silver cord – our vertical connection between our Earthly three-dimensional plane and our multi-dimensional spiritual realms. We can clearly see now that by maintaining the intensity, vibration, and strength we have within, we stay connected to our all-Knowingness and are easily able to raise our Selves to feel and know our awesome oneness with all there is! **This is how we save our planet!**

This is how we save ourselves! No one, up until now, has stood to face the present, out-of-control, fear-based race to utter destruction. Who *are* those epitomized in Yogananda’s **Realization Fellowship?** It is our Selves in this era of planet wide ascension! May there be a gentle wind at our backs at this “moment of truth”, this moment of revelation of our Grand Purpose. We ARE creators of our vast, unlimited, loving universe, we ARE Holy Love.

Columbia, where we replanted much of the vineyard with “Champagne clones” from France (Chardonnay, Pinot Noir, and Pinot Meunier). These famous vinifera varieties complemented our existing Geisenheim 21b clone Riesling which ironically had been planted in the mid-seventies by Eric’s Geisenheim professor with his hunch that the Okanagan was an ideal climate for growing intensely flavored grapes! The first Summerhill Pyramid cellar was enthusiastically designed and built to face True North with no ferrous metals so as not to reorient to Magnetic North. It was a thirty-foot square, one-and-a-half story, wooden frame pyramid with an indented concrete cellar. Eric and I produced the first Cipes Brut, which was an organically-grown, Riesling-based cuvée, which was released in 1992 in New York City to raves in the *New York Times*, *Wall Street Journal* and many international publications.³⁹

Learn how to build a year-round house for as little as the cost of the nails (approx. \$200). The Sean & Esther Sanctuary, Grand Forks, BC, was built by the late Esther Sands and her husband, Dr. Sands. They have demonstrated how to live with very little money, including an ingenious way to build year-round residences.⁵⁰
